
27M CHASE BOAT M/Y ATLANTICO

Atlantico

Already delivered to the owner of the 55m M/Y Atlante – 27m Atlantico is much more than just a chase boat which will serve the 54.8-metre CRN-built Atlante!

Atlantico features fold-down bulwarks aft that extend the main-deck beach club. Large windows, teak decking and a minimalist, open-plan interior provide maximum contact with the marine environment.

"This is a very cool full-aluminium yacht," enthuses Celik. "The owner wants to use it as a fast day boat for exploring remote places or accessing secluded beaches, so it has two stylish cabins and is powered by three top-of-the-range Volvo Penta IPS units for a top speed of 35 knots."

Designed by Stefano Pastrovich to echo the profile of the mothership, the aft bulwarks fold down to extend the main deck 'beach club' while the large windows, continuous teak decking and minimalist, open-plan interior provide maximum contact with the marine environment. Alia is now developing a 40m version based on the same concept that will function as a standalone super yacht.

ABOUT ALIA YACHTS

Alia Yachts was founded in 2008 by Gökhan Çelik, together with his business partner Ömer Koray, in Antalya, Turkey. Its purpose-built facilities are equipped for cutting-edge yacht construction in carbonreinforced composites, steel and aluminium up to 60 metres. The shipyard recently completed an expansion of its facilities, adding 16,000 sqm, increasing production capacity and allowing larger yachts to be built entirely under cover.
